M. Masoom Mallah

Software-Engineer

Career - Objective:

As a motivated and aspiring software engineer, my goal is to apply my foundational knowledge in programming and software development to contribute effectively to a dynamic team. I am eager to gain hands-on experience and learn from seasoned professionals. I am committed to honing my skills and expanding my expertise to tackle challenges and deliver innovative solutions. I am seeking an opportunity where I can grow professionally and contribute meaningfully

Education:

Higher-Diploma in Software-Engineering II	2023 - 2025
Aptech Garden	
Matriculation-Certificate	2021 - 2022
Prime Public School	

Experience:

Eproject

<https://masoom369.github.io/metric-conversions/>

This webpage is designed to provide you with easy-to-use tools and information for converting various metric measurements. Whether you need to convert area, length, volume, mass, temperature, or currency, we've got you covered.

To-Do-App

<https://masoom369.github.io/to-do-app/>

A simple to-do web app created to learn the concept of object-oriented programming (OOP) in JavaScript. It allows users to create, edit and delete tasks, and it showcases the principles of encapsulation, inheritance, and polymorphism.
